ColmontGroup

Patient Capital for the Next Generation of Privately-Owned Businesses

www.colmontgroup.com

FIRM OVERVIEW

Colmont Group is a Charlotte-based family office that invests equity capital in privately-owned companies across the Southeast and Mid-Atlantic. We are not a typical private equity firm. We invest our own capital, answer to no fund mandate, and operate with no forced exit timeline. We seek majority equity positions and prefer to keep existing management in place. We bring strategic resources, capital, and a long-term perspective.
